

10 Questions You Should Ask

Ten Questions to Ask Before Deploying Ushahidi:

This section is courtesy of [George Chamales](#), community member and solid developer contributor. Thanks!

- Who are you?
- What are you trying to accomplish with this deployment?
- What information do you want to collect?
- Who will submit that information?
- How will it be submitted?
- Who will monitor and approve reports?
- How will you verify the reports?
- Who will use the data?
- Are there any security concerns regarding the collection and presentation of the data?
- How will the data be used to accomplish what you are trying to accomplish?
