Community Testimonials

The Ushahidi community is large. Here are some community responses about their experiences:

Citizen Action - Philippines

"We are relatively a new project in a country where there exists different efforts to monitor, report and fight public corruption, but we want it to be closer and more handy to ordinary citizens by using the Ushahidi platform.
And it is working! We have received more than 100 citizen reports about what's working or not in their communities since we launched last month, and we continue to receive requests to build citizen action groups for accountability and help them look into their issues."
Alan Davis, CANA Program Director
Rorie Fajardo, CANA Program Manager
