

Crowdmaps Tips and Tricks

Customize your About Page

Example Site:

<https://mightymoriver.crowdmap.com/page/index/14>

The code:

* to add * continues the raw HTML currently contained in the site message box at:

Should be able to decipher the dummy report img tag, e.g., as shown on lines 4-11

Also html from report text box - *to Add* re: <http://mightymoriver.crowdmap.com/reports/view/297>

Thanks to [Chris Augeri](#) for sharing this!

Use Icons

Instead of using boring old color-coded dots for your categories:

<http://thenounproject.com>
