

Help! I can't get into Ushahidi Platform (V2)

So you've got to a website like <http://www.someushahidi.com/> and you can't see anywhere to log in.

First, try going to <http://www.someushahidi.com/login>

If you see a login screen asking for your username and password, either register or log in.

If you don't, first try going to <http://www.someushahidi.com/logout>

If that doesn't work, you might have to delete the cookies on your browser, because Ushahidi thinks you're already logged into this site.
