

Crowdmap - Basic Features

Crowdmap Beta Home:

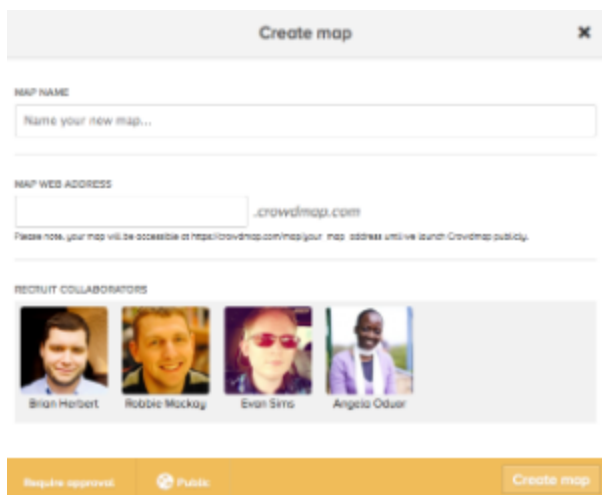

Create a post:

You can attach an image, add your location, choose which map(either those you own or those you follow) your post should belong to, and even set the post as public or private

Create a Map:

As an added feature, you can now also recruit collaborators while creating/setting up your map

Find Posts:

Search for posts using keywords or names

Find a Map:

Search for maps using keywords or name

Search maps ▾

[Advanced Options](#)

Search

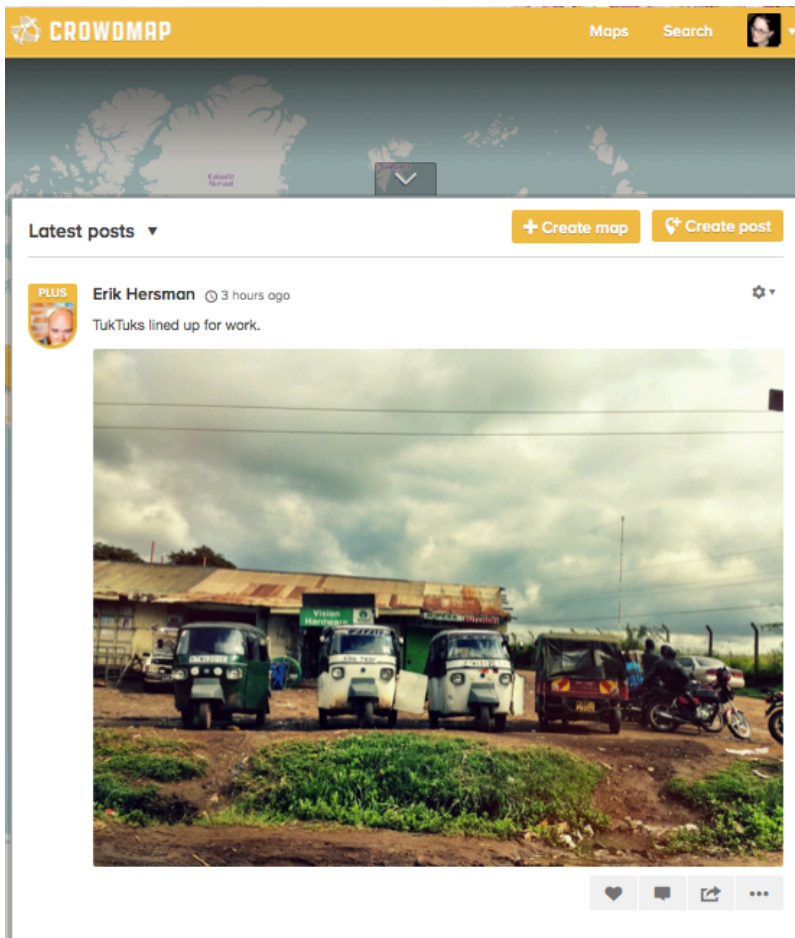

Collaborate:

You can follow people and maps. And, you can recruit people you "follow" to collaborate on maps with you.

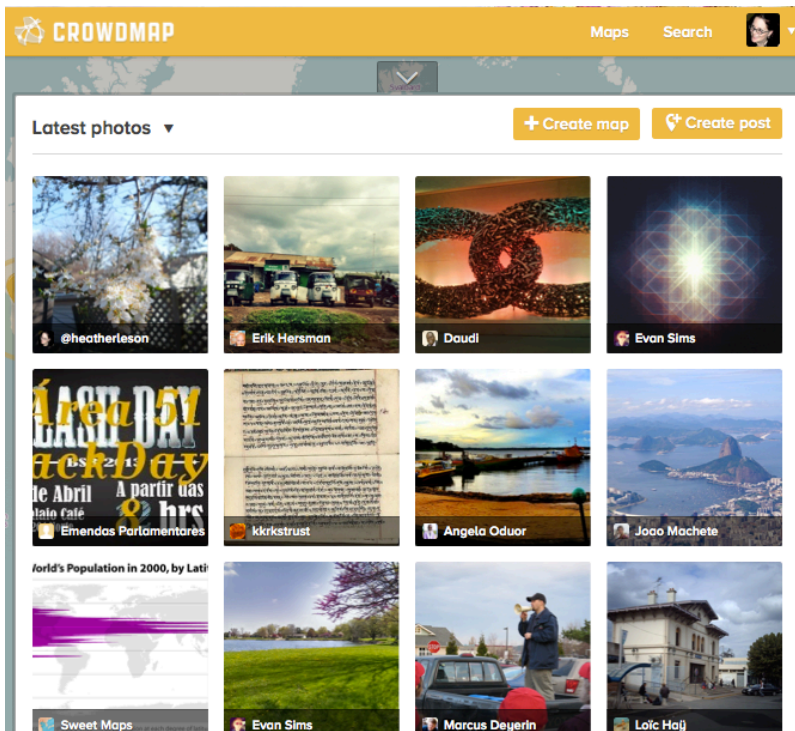

Find a Person:

This feature will be added at a later date. Stay Tuned
