

Crowdmap - Settings

Changing your settings is easy!

Step 1: If you're on the crowdmap homepage, click on the drop-down arrow in the top right hand corner of the Crowdmap page:

If you're on your profile page, you can alternatively click on the gear icon

Step 2: Adjust your "Account Settings".

You can do the following on this page:-

- View a summary of the number of posts and maps you have made, number of people you are following and number of followers you have
- Edit your Bio
- Change your password
- Enable two factor authentication - We support Google Authenticator(for [iOS](#) and [Android](#)) and [Yubikey](#) for this option
- Connect your crowdmap account to your instagram account and allow for automatic posting

- Change your map base layer

The screenshot shows the Crowdmapp user profile settings page for Angela Oduor. The background is a map of the world. The user's profile information is displayed at the top, including a profile picture, name, and bio. The settings menu is open, showing various options for account management and social media integration.
