Crowdmap - Your Posts

Once you've created your profile, you can see all Your Posts or all the latest Crowdmap Posts of other users you follow.

View your latest posts from "My Profile":

To view posts on your own profile, click on the drop-down arrow in the top right hand corner of the Crowdmap page and click on "My Profile"

View all the Latest Posts:

You should be able to see all the latest posts from people you follow on your crowdmap timeline.

You can comment on posts,

View which maps they belong to/ add them to a certain map(this feature is coming soon)

Like them,

And share them too!

map from here. In

You can also view all the latest photos on your timeline

Create a Post

Here are the steps to submit a post and learn more about the fields:

				Create post X
	Write so	mething		
o†	€	m	۲	Publish

Step 1: Add Text

Add the content of your post, e.g I love the crowdmap elephant

Note: We added a 'markdown' cheat sheet to help you with basic post commands:

				Create post	×			
	Write so	mething						
	Formatting Cheat Sheet							
	Markdo	wn	Prod	luces				
	italic **bold** ***bold and italic***		italia	c				
			bold	I				
			bold	I and italic				
	More advance Markd			intax				
o†	€	۵	۲		Publish			

Step 2: Click on the Camera and add a photo (from your photo files), if you have one to share

•	Location			
Search for a place name Sear	the by address or occurdingses			
۰				
٠	Ø			
Dan't see what you're Looking for?				
Remove location	Done			

Step 3: Add your Location (optional)

If the place you are trying to add doesn't already exist in the location, you can add it, and it will be saved in our

crowdmap place database.

Step 4: You can add a post with the option of adding this post to a map.

You can add the post to maps you own, or maps you follow

•	Maps this post appears on	
YOUR MAPS		
Textontechs		0
HeatherLeson		0
ushahidi community		0
Music is Blood		0
MAPS YOU FOLLOW		

Step 5: Private settings can be changed. You can share the post with "public" or "private". (optional)

Note: a private post not posted to any maps is only viewable by the post owner. A private post posted to a map is viewable by any owner and collaborators of that particular map.
