PLUS

Thank you for joining Plus!

You've joined a family of Crowdmap Plus subscribers. You'll now have access to more map tiles and a snazzy new border around your avatar to show off your support.

On top of all that, we're working hard to add additional features for Plus subscribers, like custom CSS on your maps so you can customize the mapping experience for the people visiting your maps. We're also working hard to come up with other good ideas for Plus mappers like you. [Let us know](#) about any feature requests you may have!

Finally, the entire Crowdmap team and the [Ushahidi](#) family wants to thank you for supporting us. You're helping us keep the lights on over here and without your support, Crowdmap wouldn't be able to evolve and become a better service for you and everyone.

Thank you!
