

Community Project (template)

Community Projects

These projects can range from a plugins to features to interoperability between different software. We love the [Sahana blueprint model](#) and the [Random Hacks of Kindness Hackathon Model](#).

Draft Components:

What is it? (TL'DR)

What is it? (longer version)

Who is leading the project?

Why is it necessary? What challenge are you trying to address?

Who are you creating it for (user stories)?

What is the Plan/Timeline?

Give a Draft "Table of Contents"

What is needed? How can we support you?
