

# Localization meeting (May 1, 2012)

Michelle Lee (intern) and Heather met to discuss the next steps for the localization project.

We co-wrote and posted this [blog item](#) based on our current research.

Next steps:

- Michelle attempted to test Pontoon and Transifex. She has questions on the status of the project. Heather to introduce Henry and Robbie.
- Heather to introduce Michelle to George Weyman of Meedan to discuss their TranslationDesk project.
- We are collecting feedback from translators on requirements to improve this process.
