Creating a New Account

While in private beta, users require an invite to open a SwiftRiver account. Click on the link sent to you via email to register and create your account.

The image shows a screenshot of the SwiftRiver website's registration page. At the top, there is a blue navigation bar with the SwiftRiver logo, a home icon, and a search icon. Below the navigation bar, the page is titled "Get Started" with a sub-header "Current users" and a "New users" tab. The registration form contains the following fields: "Name", "Email", "Username", "Create your password", and "Confirm your password". A blue button labeled "Create account and log in" is located at the bottom of the form.

Fill out all the required details. Make sure your password is more than 8 characters long.

Once done, click on Create Account and log in.

If your account is created successfully, congratulations, and welcome to SwiftRiver!
