

Creating Buckets

You can create buckets in three different ways:-

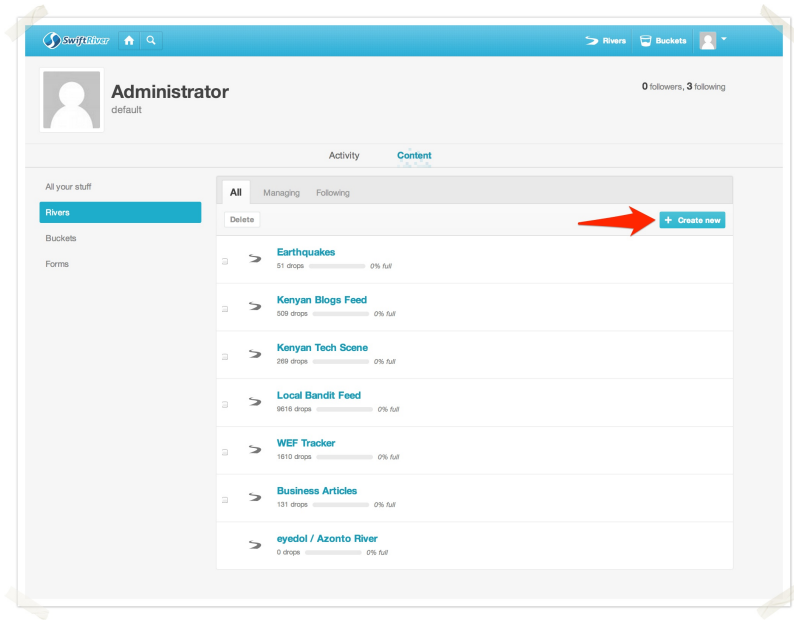

From your dashboard/Content stream

This is where you'll see the latest from people, rivers and buckets you follow.

 Get real-time information flowing.
Rivers are real-time streams of information from the channels and topics that matter to you.
[Create a river](#)

 Save your hand-picked information.
Buckets are containers for the information you want to save, organize and gain insight from.
[Create a bucket](#)

 Find information and people of interest.
Search rivers, buckets and people that are wading through real-time information.
[Search](#)

The screenshot shows the user interface for an administrator. The top navigation bar includes 'Rivers' and 'Buckets' tabs. The main content area is titled 'Content' and displays a list of buckets. A red arrow points to the '+ Create new' button in the top right corner of the bucket list.

	All	Managing	Following
<input type="checkbox"/>	Delete		+ Create new
<input type="checkbox"/>	Earthquakes	51 drops	0% full
<input type="checkbox"/>	Kenyan Blogs Feed	509 drops	0% full
<input type="checkbox"/>	Kenyan Tech Scene	289 drops	0% full
<input type="checkbox"/>	Local Bandit Feed	9616 drops	0% full
<input type="checkbox"/>	WEF Tracker	1610 drops	0% full
<input type="checkbox"/>	Business Articles	131 drops	0% full
<input type="checkbox"/>	eyedol / Azonto River	0 drops	0% full

From the top right hand corner of your header

The image shows a close-up of the top navigation bar. The 'Buckets' tab, which includes a bucket icon, is highlighted with a red rectangular box. To its left is the 'Rivers' tab with a river icon, and to its right is a user profile icon with a dropdown arrow.

When adding drops in a river into a bucket

Give your bucket a name, and save when you're done.

Congratulations, you've just successfully created a bucket
