Wiki Changes by STC

The following wiki change recommendations were provided during the Society of Technical Communication (Toronto branch) Management Day held on February 29th, 2012.

1. Add a "Welcome" page. Redirect readers of the site to a "Downloads page"
2. About - Should have history, leadership information
3. Getting involved - Change the terms "technical community" and "non-technical community"
   I am passionate about a topic, I want to help make Ushahidi, I want to help spread Ushahidi
4. Best Practices should be spread out to appropriate sections.
5. Service should be renamed - Value added services
6. Change Documentation to "Products and documentation"

The team also:

- Changed the overall wiki taxonomy
- the Ushahidi Products and Documentation section
- Added documentation and writing guidelines
