

Ushahidi v3.x - Roadmap

The V3 roadmap now lives in Phabricator. If you think a feature is missing from it, please add it to Phabricator.

We're also in the middle of migrating feature lists from a whole bunch of places to the Phabricator lists. The places we're looking at are:

List	Status
<ul style="list-style-type: none">• V2 feature lists - copying feature requests that are relevant to V3	All done up to end of July 2014 - need to check every so often for new feature requests.
<ul style="list-style-type: none">• V2 designs - making sure the things that need to transfer across get on the list	Angie/Anarghya are writing the V2 feature lists for checking.
<ul style="list-style-type: none">• V3 UX designs - rechecking that everything needed got in	not started yet
<ul style="list-style-type: none">• Community wish list - migrating this into Phab	not started yet
<ul style="list-style-type: none">• wiki.usshahidi.com research section	not started yet
<ul style="list-style-type: none">• Email from NotGeorge 2014-06-20	not started yet
<ul style="list-style-type: none">• UN's list of their custom modifications to V2 (in email)	not started yet
<ul style="list-style-type: none">• Fundacion Paraguaya features - adding features from our first test case	not started yet
<ul style="list-style-type: none">• V3 Toolkit Documents	not started yet
<ul style="list-style-type: none">• V3 Communications documents	not started yet
<ul style="list-style-type: none">• V3 community paths	not started yet

If you know of any other places we need to check for features, please tell us!
