

Plugin Actions

Plugin Actions

Introduction

Actions are events (or hooks) to which callback functions can be attached.

In the example below, the event is `report_add`, and the `email_subscribers` callback is attached to this particular event. Whenever this event is encountered, all the associated plugins that are attached to this event will be executed.

Example:

```
<?php
// Email subscribers whenever a new report is created
Event::add('ushahidi_action.report_add', 'email_subscribers');
?>
```

Reference

Unknown macro: {table-plus}

Action	Parameter	Description	File
report_delete	<code>\$incident_id</code>	Report deleted	application/controllers/admin/reports.php
report_meta	<code>\$incident_id</code>	Add items to the Report Meta	application/themes/default/views/reports_view.php
report_form_admin	<code>\$id</code>	Runs just after the report description	application/views/admin/reports_edit.php
main_sidebar		Add Items to the Entry Page Sidebar	themes/default/views/main/layout.php; themes/polaroid/views/main/layout.php; themes/unicorn/views/main/layout.php
main_sidebar_pre_filters		Add items before the filters on the Entry Page Sidebar	themes/default/views/main/layout.php; themes/polaroid/views/main/layout.php; themes/unicorn/views/main/layout.php
main_sidebar_post_filters		Add items after the filters on the Entry Page Sidebar	themes/default/views/main/layout.php; themes/polaroid/views/main/layout.php; themes/unicorn/views/main/layout.php

map_main_filters		Add items to the main filters	themes/default/views/main.php; themes/polaroid/views/main.php; themes/seguridad-v2/views/main.php; themes/unicorn/views/main.php
report_form_admin_after_time	\$id	Runs just after the report time	application/views/admin/reports_edit.php
report_form_admin_location	\$id	Runs just after the report location	application/views/admin/reports_edit.php
report_form_admin_after_video_link	\$id	Runs just after the report video link	application/views/admin/reports_edit.php
report_pre_form_admin	\$id	Runs right before report form is rendered	application/views/admin/reports_edit.php
config_routes	\$config		application/config/routes.php
config_upload	\$config		application/config/upload.php
category_save	\$post	Runs just after a category is saved	application/controllers/admin/manage.php
page_submit	\$post		application/controllers/admin/manage.php
page_edit	\$page		application/controllers/admin/manage.php
report_approve	\$update		application/controllers/admin/reports.php
report_unapprove	\$update		application/controllers/admin/reports.php
location_from	\$message_from		application/controllers/admin/reports.php
report_submit_admin	\$post		application/controllers/admin/reports.php
report_edit	\$incident		application/controllers/admin/reports.php
report_edit	\$incident	Run after a incident is edited or created	application/controllers/members/reports.php
site_settings_modified			application/controllers/admin/settings.php
map_settings_modified			application/controllers/admin/settings.php
users_add_admin	\$post		application/controllers/admin/users.php
user_edit	\$user		application/controllers/admin/users.php
user_login	\$user		application/controllers/login.php
users_add_login_form	\$post	The post object when a user is signing up on the login page	application/controllers/login.php

user_edit	\$user	The user object when a user is singing up on the login page	application/controllers/login.php
report_add	\$incident		application/controllers/reports.php
report_submit	\$post		application/controllers/reports.php
comment_add	\$comment		application/controllers/reports.php
message_email_add	\$email		application/controllers/scheduler/s_email.php
message_twitter_add	\$message		application/controllers/scheduler/s_twitter.php
nav_admin_main_top	\$tabs		application/helper/admin.php
nav_members_main_top	\$tabs	an array of tabs that will show up on the main navigation menu	application/helpers/members.php
nav_admin_reports	\$this_sub_page		application/helper/admin.php
nav_admin_messages	\$service_id		application/helper/admin.php
nav_admin_settings	\$this_sub_page		application/helper/admin.php
sub_nav_admin_settings_sms	\$this_sub_page		application/helpers/admin.php
nav_admin_manage	\$this_sub_page		application/helpers/admin.php
nav_admin_users	\$this_sub_page		application/helpers/admin.php
nav_members_reports	\$this_sub_page		application/helpers/member.php
nav_members_private	\$this_sub_page		application/helpers/member.php
nav_members_alerts	\$this_sub_page		application/helpers/member.php
nav_main_top	\$this_page		application/helpers/nav.php
message_sms_add	\$sms	SMS Recieved	application/helpers/sms.php
post_nav_submit		Add items after the submit button	application/libraries/Themes.php
checkin_recorded	\$checkin	Hook on successful checkin	application/libraries/api/MY_Checkin_Api_Object.php
report_submit_api	\$post		application/libraries/api/MY_Report_Api_Object.php
report_edit_api	\$incident		application/libraries/api/MY_Report_Api_Object.php
user_submit_admin	\$post	Additional validation checks	application/models/user.php
admin_checkins_custom_layout			application/views/admin/checkins.php
checkin_extra_admin	\$checkin_id		application/views/admin/checkins.php
header_scripts_admin			application/views/admin/layout.php

admin_header_top_left		Admin Header Menu	application/views/admin/layout.php
admin_secondary_header_bar		Admin Secondary Menu	application/views/admin/layout.php
admin_messages_custom_layout			application/views/admin/messages.php
message_extra_admin	\$message_id	Message additional/extra stuff	application/views/admin/messages.php
message_from_admin	\$message_from	Message additional/extra stuff	application/views/admin/messages.php
page_form_admin		Runs just after the page description	application/views/admin/pages.php
report_extra_admin	\$incident	Add items to the report list in admin	application/views/admin/reports.php
users_listing_header		Add header item to users listing page	application/views/admin/users.php
users_listing_item	\$user_id	Add item to users listing page	application/views/admin/users.php
users_form_admin	\$id	Add content to users form	application/views/admin/users_edit.php
feed_atom_head		Add to the feed head	application/views/feed_atom.php
feed_atom_item	\$item['id']	Add to the feed item	application/views/feed_atom.php
feed_rss_head		Add to the feed head	application/views/feed_rss2.php
feed_rss_item	\$item['id']	Add to the feed head	application/views/feed_rss2.php
header_scripts_member		Additional inline scripts	application/views/members/layout.php
report_extra_members	\$incident	Add items to the report list in admin	application/views/members/reports.php
report_pre_form_messages	\$id	Runs right before report form is rendered	application/views/members/reports_edit.php
nav_main_bottom		Add items to the bottom links	themes/bueno/views/footer.php; themes/default/views/footer.php; themes/polaroid/views/footer.php; themes/seguridad-v2/views/footer.php; themes/unicorn/views/footer.php
main_footer		Add items before the </body> tag	themes/bueno/views/footer.php; themes/ci_cumulus/views/footer.php; themes/default/views/footer.php; themes/polaroid/views/footer.php; themes/seguridad-v2/views/footer.php; themes/unicorn/views/footer.php

header_scripts		Additional inline scripts	themes/bueno/views/header.php; themes/ci_cumulus/views/header.php; themes/default/views/header.php; themes/polaroid/views/header.php; themes/seguridad-v2/views/header.php; themes/unicorn/views/header.php
page_extra	\$page_id		themes/default/views/page.php
report_filters_ui		Add custom filters	themes/default/views/reports.php
comment_form		Runs right before the end of the comment submit form	themes/default/views/reports_comments_form.php
report_form		Runs right after the report categories	themes/default/views/reports_submit.php
report_form_optional		Runs in the optional information of the report form	themes/default/views/reports_submit.php
report_form_location	\$id		themes/default/views/reports_submit.php
report_form_after_video_link		Runs after video link on front end	themes/default/views/reports_submit.php
report_meta_after_time	\$incident_id		themes/default/views/reports_view.php; themes/polaroid/views/reports_view.php
report_meta	\$incident_id	Add items to the report meta (Location/Date/Time etc.)	themes/default/views/reports_view.php
report_display_media	\$incident_id	Add content just above media section	themes/default/views/reports_view.php
report_extra	\$incident_id	Allows you to target an individual report right after the description	themes/default/views/reports_view.php
login_new_user_form		Runs when rendering the sign up form on the login page. Use this to add new fields for new users to fill out.	themes/default/views/login/main.php
header_nav_bar		Allows you to insert content into the header nav stripe	application/views/header_nav.php
profile_add_admin	\$post	When a user modifies their profile this action will notify any relevant plugins and provide the HTTP POST object	application/controllers/admin/profile.php
profile_edit	\$user	When a user modifies their profile this action will notify any relevant plugins and provide the ORM user object	application/controllers/admin/profile.php

profile_post_member	\$post	Returns the post object when members update their profile	application/controllers/members/profile.php
profile_edit_member	\$user	Returns the user object when members update their profile	application/controllers/members/profile.php
